

I am a Volunteer from Germany and I am committed to Sneha Care Home for eleven month. My partner organization FSL India (Field Services & Intercultural Learning) placed me here. My main tasks are teaching the small children in English, practicing Throwball and other sport activities with the older girls, helping the children with their homework, supporting the children who have difficulties with learnings, as well as just spending time with them and having fun together. Sneha Care Home is a lovely and peaceful place and I am very thankful for getting the opportunity to live and work in such a wonderful center.
